Jerry Orbach was a familiar face on the small screen and was just coming off his role on The Mod Squad. Another young actor on the series was Russell Johnson, who was starting his career playing the character of Ty on the series Star Trek: The Original Series. At his audition for the series, Beltran, who was 20 at the time, had met Orbach at the TV studio. Orbach had been introduced to Beltran by Star Trek casting director Paula Christensen, and had offered him the role of Larry. "Jerry Orbach was the kind of guy that you would never know he was an actor," said Beltran. "He was very down to earth. He was down to Earth. He would ask, 'How's the family? How's your mother?' You could ask him about anything, and he would immediately answer you, even if he was on the other side of the country. It was the 'Mr. Popular.' He was a class act. Just a great guy. It was real humbling to meet him, and he was the epitome of what a truly great actor should be." Beltran co-starred with Jerry Orbach as Larry Orbach on the series

There is no doubt that neurodegenerative disorders are a common cause of cognitive dysfunction. In recent years, with the development of new imaging techniques, pathophysiology in these disorders is becoming more apparent. In this review we examine how Alzheimer's disease may be at the heart of cognitive dysfunction in the elderly. We focus on the essential role of amyloidosis, and the significance of failure of anterograde axonal transport of CNS proteins including tau, in cognitive dysfunction. We consider whether tau aggregation is the key to the pathogenesis of Alzheimer's disease and may lead to the development of drugs that can slow cognitive decline.us could be further increased. Moreover, the randomness could be further improved by choosing the basis of $\mathbb{B}^{\{\text{perp}\}}$ so that the latter is approximately a ball.
